

High Speed Hand Labelers

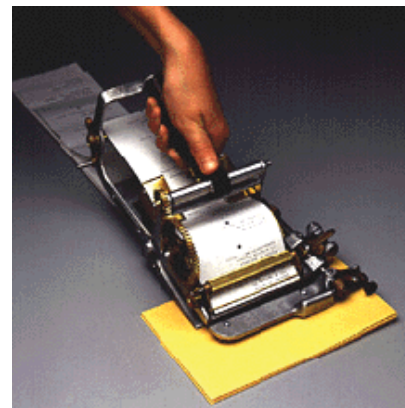

#SA-100 Mailer - Pictured above and at side. Allows you to affix self adhesive labels in just one easy stroke. Eliminates time consuming "cracking and peeling". Takes just seconds to load. One hand operation leaves the other hand free to stack your pieces as you finish labeling them. Use for just one mailing and you will never want to be without it. Extremely fast and efficient. Adjustable for various size labels.

Repair Service is available for for the **SA-100 Mailer**.

Fanfold Labels

- #WMFFSAL3.5 - Standard 3.5" x 15/16" white fanfold labels 5,000 per box. Price breaks at 4 and 10 ctns.
- #WMFF3 - 3" wide labels - 3,000 sheets/33,000 labels/ctn.
- #WMFF3B - 3.5" wide labels - 3,000 sheets/33,000 labels/ctn.

#WM5 Original Wing Mailer - (above) - Using plain paper labels and adhesives costs about 1/4 the price of using self adhesive labels. Apply any continuous list with an aluminum Wing Mailer. Ideal for newspapers, magazines, envelopes, or any direct mail piece. Each stroke applies a label either 3" or 3.5" wide. Applies adhesive, cuts, and affixes label in one easy stroke. Proven reliability and dependability for over 100 years.

Repair Service blades and parts are available for the **Original Wing Mailer**. Please call for details.

#WM161 Mailing Machine Paste for ordinary use.
#L-59 Mailing Machine Paste for glossy surfaces.
 Four gallon minimum on **WM161** and **L-59**.
 Note other popular paste options on page 7.

Fast Automatic Label Dispensers

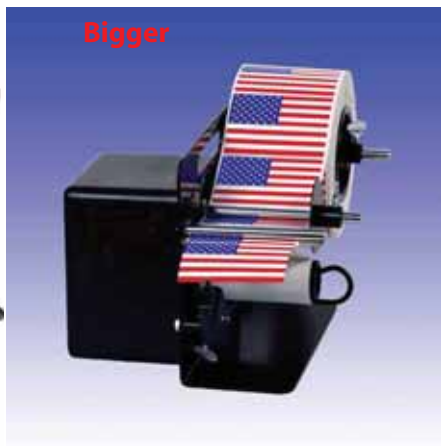

Big

#HCSU25 - Label dispenser

For labels from 3/8" up to 2.5" wide. Fast power advance brings labels up at the rate of 5" per second. Accepts up to 9" diameter rolls with 1" to 3" cores. Comes with a 3" core adapter. Other size cores hang on rod. Works with fanfold labels also.

Bigger

#HCSU45 - Label dispenser

For labels from 3/8" up to 4.5" wide. Fast power advance brings labels up at the rate of 5" per second. Accepts up to 9" diameter rolls with 1" to 3" cores. Comes with a 3" core adapter. Other size cores hang on core rod. Works with fanfold labels also. Optional High Speed model advances at rate of 9" per second!

Biggest

#HCS 16-2 - Label dispenser - FOR COMPUTER FAN FOLD FORMS...

Will handle 1-up fan fold labels of any length and multiple row formats up to 15" in width. (For long labels Micro-Switch Extension kit or foot switch is required). Adjusts to all widths, and can be changed from fanfold to roll in just seconds, without tools! Dispensing table can be removed in seconds for cleaning or changing to a sharp edge table. Machine comes with a standard edge table, but upon request if you will be dispensing Mylar/foil or very thin labels a sharp edge table is available in replacement. FOR LARGE ROLL LABELS (butt cut or die cut)... This new high-speed unit will enhance application of most large labels in rolls up to 9" (15" with optional "Roll Holder Extension Kit!) in diameter. The **HCS 16-2** permits efficient and "FAST" continuous labeling of products with the labels waiting for you - not you waiting for the labels.

#HCSU6 - (not shown) is available for labels or forms up to 6" wide and looks exactly like the **HCSU45** shown in the above middle picture.

Note - regarding HCSU Labelers - they will accept either Fanfold or Roll labels and either die or butt cut.
